Dear Sir/Madam,

Sub: Intimation regarding Press Release under Regulation 30 of SEBI (LODR) Regulations, 2015

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed a copy of the Press Release being issued by the Company today titled:

“Avio Smart Market Stack Collaborates with US-based Aquasafra and Waterfield Farms for Aquaculture Ecosystem.”

A copy of the said Press Release is enclosed herewith as **Annexure – I**.

You are requested to kindly take the above information on record.

Yours faithfully,
For Avio Smart Market Stack Limited
(Formerly Known as Bartronics India Limited)

Diksha Omer
Company Secretary

ANNEXURE-I

Avio Smart Market Stack Collaborates with US-based Aquasafra and Waterfield Farms for Aquaculture Ecosystem

National | March 25th, 2026:

Avio Smart Market Stack Limited (ASMS), formerly known as **Bartronics India Limited**, has entered into a **strategic MOU** with **Aquasafra Holdings, Inc. (AHI)** and **Waterfield Farms, Inc. (WFI)**, USA, to explore the development of **technology-driven aquaculture and fisheries ecosystems**.

Headquartered in the United States, **Aquasafra** has developed specialized capabilities in high-performance tilapia genetics, including hybrid seed stock designed for faster growth cycles, higher survival rates, and resilience across diverse farming conditions. Its operating model integrates broodstock development, feed optimization, farm design, and production systems, along with technical advisory and training enabling scalable, commercially viable aquaculture deployments across regions. This collaboration brings together **ASMS's rural distribution infrastructure and digital ecosystem spanning over 5,000 villages and a connected base of millions of rural participants with Aquasafra's US-based aquaculture expertise, spanning advanced fish genetics, hatchery systems, and integrated aquaculture and aquaponics solutions, backed by over three decades of industry experience.**

The partnership is aimed at **building scalable, commercially viable aquaculture models** that integrate advanced **tilapia genetics, sustainable farming practices, and optimized supply chain linkages**. The focus will be on **improving productivity, survival rates, and input efficiency** across aquaculture operations, while enabling new livelihood opportunities in **rural and peri-urban markets**.

As part of this initiative, the companies will explore the establishment of **regionally adapted hatcheries for high-performance tilapia seed production, deployment of modern aquaculture systems, and integration of aquaponics-based models for climate-resilient agriculture**. The collaboration will also **evaluate feed optimization partnerships, lake and reservoir stocking programs, and structured capacity-building initiatives for farmers, cooperatives, and agri-entrepreneurs**.

The engagement aligns with **ASMS's broader strategy under Project AVIO Agritech** to expand into high-value sectors such as **fisheries, water resource management, and climate-linked rural enterprises**. By leveraging Aquasafra's proven aquaculture technologies and global operating experience, ASMS aims to build a scalable aquaculture layer within its smart market stack.

AVIO SMART MARKET STACK LIMITED

(Formerly known as Bartronics India Limited)

Commenting on the development, **Dr. Raja Krishnamurthy M, Head – Agri Tech Business, ASMS**, said: “Aquaculture represents a significant opportunity to enhance rural incomes and diversify agricultural value chains. This collaboration allows us to combine strong on-ground access with global aquaculture expertise to build scalable and sustainable models across regions.”

The companies will also explore **joint research and innovation initiatives focused on disease resistance, climate-resilient production models, and efficient water management systems, with the objective of creating long-term value across commercial and community-driven fisheries programs.**

About Avio Smart Market Stack Limited (formerly Bartronics India Limited)

Avio Smart Market Stack Limited has strategically expanded into the high-growth health-tech sector, supporting the development and commercialization of innovative diagnostic technologies aimed at improving access to affordable healthcare across India. Alongside this, the company is building what it aims to become India’s largest unified rural operating system, integrating financial inclusion, agriculture, rural commerce, and climate solutions to digitally empower farmers and underserved communities across the country.
